

Structural Steel Project Profile

Industrial Building Frames

Atlantic Wallboard Limited Saint John, New Brunswick

Ocean Steel's Saint John and Fredericton plants have shared the duties of fabricating a total of 840 tons of structural steel, handrail, ladders, and floor plate to meet the aggressive project schedule. Ocean Steel's erection crew successfully completed the installation of the two major structures-the Calcining Mill, and the Stucco Handling & Wet and Dry Additives Area. In addition, numerous miscellaneous projects were supplied and installed including platforms, monorails, conveyor supports, secondary buildings, roof and wall openings, infill steel, decking, and grating as required to meet the customers needs.
