

Structural Steel Project Profile

Commercial Building Frames

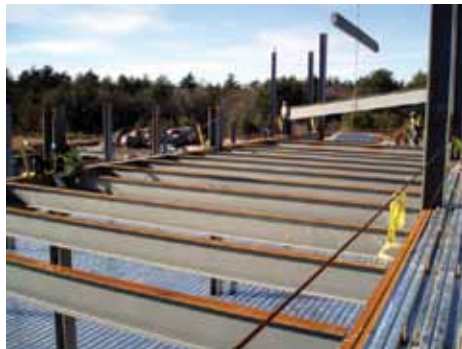

Bayer Immunoassay Reagent Expansion Wapole, MA

Ocean Steel was chosen by Columbia Construction Company of North Reading, MA, to furnish and erect the structural steel for Bayer Corporation's Healthcare Immunoassay Reagent Expansion, in Wapole, MA. This Bayer facility supplies the reagent used in blood testing, which forms a chemical bond with blood components. The demand for this product was sufficient for Bayer to fast-track the project, starting construction before the building design was complete.

Tonnage: 1055
Customer: Columbia Construction Company
Owner: Bayer Healthcare LLC
Structural Engineer: Jacobs Engineering Group
Year: 2006

OSCO fabricated 1053 tons of structural steel, and our Customer commented that "Ocean Steel's superb detailing and fabrication helped make this one of the smoothest, problem-free steel installations." The project team's good communication was a key factor in the success of the project.
