

Structural Steel Project Profile

Institutional Building Frames

Lahey Clinic Southeast Expansion Burlington, Massachusetts • USA

The Lahey Clinic was started in 1923 as a group practice that was geared toward coordinating all aspects of a patient's care under one roof. Today, the renowned facility employs roughly 450 physicians and over 400 nurses providing a multidisciplinary approach to patient health. This 158,000 sq ft expansion provided needed space to allow it to continue with this high standard of patient care including two 18-bed surgical units, a 24-bed intensive care unit, five operating rooms, and executive health clinics. It also included a four-level, 1160 vehicle pre-cast parking garage subcontracted to our sister company Strescon Limited.
