

# Structural Steel Project Profile

## Commercial Structures

### *OSCO Construction Group Head Office Saint John, New Brunswick • Canada*

A collaborative effort of Ocean Steel, Strescon, Marque Construction and FCC Construction, the 33,000 square foot facility was framed, constructed, and wired by our own highly skilled team. The group used high quality products including precast panels and tinted reflective glass. On entering the building, visitors are greeted by an impressive two story windowed foyer flooded with natural light, before proceeding to one of six window-lined meeting rooms. In addition to a state of the art training room, employees enjoy a lunch with a spectacular view of the Saint John River.
