

# Structural Steel Project Profile

## Commercial Structures

### *Portland Jetport Portland, Maine*

Situated on just under 700 acres, three miles from downtown, the Portland International jetport accommodates more than 1.3 million people per year for cross-country flights, commutes and connections overseas.

Phase I of the parking structure added 1,480 spaces, almost doubling its current capacity. Other features of the garage include a covered walkway from the terminal; a glass atrium housing all of the rental car counters; and a dedicated floor for the Jetport's frequent flyers.

The glass ceiling of the atrium and vertical curtain wall all hang from and are supported by, eight trusses consisting of 100% welded triangular pipe trusses spanning in lengths from 40 to 110 feet.

**Owner: Portland Jetport Authority**  
**Structural Engineer: Weidinger Associates Ltd.**  
**Contractor: Cianbro Corporation**  
**Architect: Domenech Hicks & Krockmalnic**
