

Casino Nova Scotia

Halifax, Nova Scotia

*Focus on
Precast Concrete Solutions*

Casino Nova Scotia, located on the Halifax Harbor water front, complements both the modern and historic architecture of the prominent buildings of downtown Halifax - specifically the old town clock on Citadel Hill.

The structure features a large "Port Cochere" with three story towered main entrance connected to the casino as well as harbor side restaurant and a ballroom on the second level.

An architectural precast concrete panels wrap around all exterior walls and complement the Amphitheater; a highlight of the building. Located on the outer corner, the amphitheater is used for outdoor entertainment events.
