Dartmouth, Nova Scotia

*Focus on  
Precast Concrete Solutions*

## Multi Function Precast Concrete Wall Panels

Architectural precast insulated concrete wall panels accent this new Chrysler dealership located at one of Dartmouth's busiest intersections. The precast insulated concrete wall system has multiple uses:

**First** as hardwall on the inside face of the shop area making it easy to clean and maintain.

**Second** the architectural sandblasted exterior finish is able to withstand the scrapes and bumps of yard vehicle traffic.

**Third** the panels extend above the roof structure and act as a guard rail for the roof top parking of cars allowing them to be seen from the highway.

The panels were insulated with a solid core of rigid insulation providing a good heated interior workspace. The precast concrete panels act as a storage unit retaining heat when the shop doors are open saving on heating costs.

Project: Daimler Chrysler - Dartmouth, Nova Scotia

Architects: WHW Group - Halifax, Nova Scotia

Engineer: Brandys McBride Richardson Engineering Ltd. - Halifax, Nova Scotia

Construction Manager: Meridian Construction Inc. - Dartmouth, Nova Scotia

Precast Fabricator: Strescon Limited - Bedford, Nova Scotia
