

Precast Concrete Solutions for *Hotels and Lodging*

Marriott Residence Inn

Woburn, Massachusetts

Metro North Corporate Center in Woburn Massachusetts is the home to a Marriott Residence Inn providing 149 rooms to this area of office buildings north of Boston.

The seven story structure was constructed using 98,000 sq. ft. of Strescon Limited's 8" thick Strescore plank supported on concrete block walls. This facility features studio suites, one bedroom suites, and two bedroom suites. All units have full kitchens and high speed internet access.

The ceilings, formed by the Strescore plank, were sprayed with a textured acoustical paint that provided an attractive finish.

STREScore PLANK SYSTEM
