

Precast Concrete Solutions for *Industrial Buildings*

Nappi Distributors

Gorham, Maine

Nappi Distributors is a third generation family owned beer and wine wholesaler company located in Gorham ME. In 2007 Nappi built this eight million dollar climate controlled facility to better service its many customers. While the main warehouse was built with traditional steel frame and insulated metal panels, the architect chose precast concrete panels for the entrance and office areas. Strescon supplied and installed approximately 7,000 sf of solid smoothed face panels which were painted on site.

Design / Builder: **BDFI Architectural Services** -
St. Louis, MO.

Engineer: **Becker Structural Engineers** -
Portland, ME.
