

# Purdys Wharf Office and Parking Complex

Halifax, Nova Scotia

*Focus on  
The Building Envelope*

**Purdy's Wharf** office towers are located on the shore of Halifax Harbor standing majestically on pylons extending from the harbor to the penthouse. The exterior facade is a combination of glass curtain wall and white protruding circular precast concrete column covers. The upper floors are crowned with horizontal bands of windows and precast architectural concrete panels.

The bold lines of the architectural precast panels can be seen on both the high rise towers and connecting buildings as well as being reflected in the design of the parking structure.

The project is a true focal point in downtown Halifax.

Project: **Purdys Wharf Complex - Halifax, Nova Scotia**  
Architects: **Shore Tilbe Henschel Irwin Peters Architects - Halifax, Nova Scotia**
