

Precast Concrete Solutions for *Offices*

# Simplex Time Recorder's Corporate Headquarters

Westminster, Massachusetts

Simplex Time Recorder's Headquarters located in Westminster, Massachusetts is home to a work force of some 500 employees. Their new 176,000 sq. ft. building was enclosed with 420 panels covering 54,000 sq.ft. of wall area.

The architectural precast concrete wall panels were accented with a buff colored water wash exposed aggregate finish, with bands of light sandblast concrete feature strips.

The building roof line was accented with a bold open air type parapet railing and strong vertical and horizontal lines, creating an interesting building facade.

Architects: **Shepley Bulfinch Richardson & Abbott** - Boston, MA
