

Precast Concrete Solutions for Housing

St. Cecilia's House

Boston, Massachusetts

Located in the Fenway section of Boston, this seven story high rise apartment building contains 123 units of one bedroom and studio living space.

Strescon provided 41,000 square feet of 8" thick hollowcore plank which formed the floors and ceilings.

Residents of the complex, which was developed by the Archdiocese of Boston, must be 62 years old or older to live here.

The building was completed in 1995.

Customer: **Peabody Construction Co. Inc.** - Braintree, MA
 Engineer: **Centennial Structural Engineers** - Boston, MA
