

Precast Concrete Solutions for Parking Garages

Waltham Weston Corporate Center Garage

Waltham, Massachusetts

Texture, color, and detail add a mark of distinction to the architectural panels on this new parking structure for Boston Properties.

To accommodate the 300,000 square foot Waltham Weston Corporate Center office complex, a 300 car parking structure was fabricated and erected by Strescon Limited. This was accomplished in just 20 weeks.

This 120,000 sq ft parking garage was assembled with 512 precast / pre-stressed concrete structural and architectural members.

The finish of the precast / prestressed concrete spandrels has a light and medium sand blast surface.

Architects: **ADD Inc.** - Cambridge, MA
 Engineer: **McNamara / Salvia Inc.** - Boston, MA
 Construction Manager: **William A. Berry & Son Inc.**
 - Danvers, MA
