

Kent Home Improvement Warehouse

Halifax & Dartmouth, Nova Scotia

Focus on
Precast Concrete Solutions

Kent Halifax

Kent Home Improvement Warehouse continues to expand and build new retail stores in communities throughout Atlantic Canada. The stores display and sell a full line of products from building supplies, garden plants and home maintenance supplies for both contractors and home owners needs.

The stores are constructed with steel frames and have precast concrete insulated Streswall panels on the exterior face. The Precast wall panels have a vertical, machine extruded white concrete rib surface with a solid rigid insulation core and a concrete interior surface that can be painted.

The "Kent" name is displayed on a large protruding canopy structure which covers the entrances, loading bay and display area. The **Kent Home Improvement Warehouses** are both functional and pleasing to the eye.

Kent Dartmouth
